Zoning bylaw comes under heavy attack

The planner for the municipality of Anson, Hindon and Minden found himself in the hotseat at the council chambers on Thursday

evening during a public meeting on the municipality's proposed comprehensive zoning bylaw.

Robert Lehman of

Robert Lehman Planning Consultants was peppered with complaints and questions from the more than 80 ratepayers who packed the

municipal chambers.

Issues raised included complaints that property rights were being taken away, objections to general

and specific zoning changes and the method used in introducing the comprehensive zoning bylaw.

The number of concerns raised by the capacity crowd prompted council members present including Reeve Lyle McKnight, Deputy Reeve Ed Pergolas, and Councillor Gary Kenney to announce at the end of the meeting that the passage of the bylaw will be delayed and another public meeting held.

The method of announcing last Thursday's meeting, the fact that many people were unaware the meeting was being held and the concern that many seasonal residents would be unable to attend, came under repeated criticism. It was suggested by several ratepayers that copies of the comprehensive zoning bylaw should have been mailed to all ratepayers in the municipality.

In response, the planner noted all area cottagers associations had received copies of the proposed bylaw last month and that a public meeting had been held on Saturday, August 31 to allow all ratepayers, including seasonal residents, an opportunity to study the proposal.

Mailing each ratepayer a copy of the proposed bylaw would cost the municipality approximately \$5000, Lehman said.

Mailing the copies before the bylaw was passed would result in an unnecessary expense since changes might have to be made in the draft proposal he said, noting all ratepayers will receive a copy after the zoning bylaw has been approved.

Clerk Treasurer Beverly Millar confirmed that letters had been sent to all ratepayers listed on the assessment rolls 30 days prior to the meeting.

Lehman explained the 30 day advance notice was required under provincial Planning Act regulations but agreed that some people may have forgotten about the meeting in the interim.

"What is important is that the bylaw has not been passed yet and all these people here can make comments," the planner said.

Lehman was asked why individual ratepayers had not been notified of possible zoning changes to their

property or to their neighbour's properties as is required under the Municipal Act.

While notification is necessary in specific cases, Lehman said the municipality was not required to notify ratepayers of changes resulting from a comprehensive zoning bylaw and that technically all properties have been affected because of the change in the bylaw from Imperial to metric measurement.

In response to the comment that more time was needed to analyze the proposed bylaw and that Council appeared to be "rushing it through", Councillor Gary Kenney assured the gathering that Council was not trying to push through the bylaw but had hoped to "wrap up" the zoning bylaw before the fall election, realizing that the new Council might not act on the proposal in the new term.

In an effort to take some of the pressure off the planner, Kenney reminded the ratepayers that Lehman was only doing his job and that Council did not want to hide behind him.

Limited services

The proposed change in zoning from Residential to Residential Limited Service (RLS) that will affect some lakefront properties came under repeated criticism as being discriminatory, and unfair.

Council was told they were doing a disservice to lakefront property owners who pay taxes yet will receive nothing in return and that the zoning will devalue properties. One ratepayer commented, "I bought residential property and I want it left that way. I don't want it changed to Limited Services."

Councillor Gary Kenney said the changes were necessary because Council could not contravene the municipality's Official Plan. The planner pointed out the change was being proposed to prevent people from converting seasonal residences into permanent homes when municipal services were not being offered, but noted the change does not prevent those services being offered

(more on page 3)

Robert Lehman, planner for Anson, Hindon and Minden, centre, fielded questions from irate taxpayers during an open house Thursday evening. The meeting had been called to consider the provisions of the new comprehensive zoning bylaw. As a result of the extensive interest in the bylaw, another public meeting will be held October 30, 7:30 p.m., at the municipal office.

Nominations completed-the campaigning now underway

While voters in some municipalities in the Highlands will have few choices to make in the upcoming municipal election and, in some cases, there are not enough candidates to fill the workable positions, ratepayers in Anson, Hindon and Minden will be making a choice in three of the four races.

As the 5 p.m. deadline for filing nomination papers passed this Monday, voters learned that the positions of reeve, deputy reeve and three council seats will all be contested.

It appeared initially that the voters would also have a chance to choose among three candidates for the two seats on the Haliburton

County Board of Education, however, on Tuesday one candidate, Jim Davis, withdrew his nomination papers. The result being that two non-incumbent candidates, John A. Cooper and Wendy Ladurantaye won their seats on the board by acclamation.

Councillor Gary Kenney and former township reeve Sinc Nesbitt will be squaring off for the position of head of council. The deputy reeve's post will be a contest between newcomer Brendan Berube and incumbent Ed Pergolas.

In announcing his candidacy, Mr. Berube said he had been dissatisfied with the performance of the present deputy reeve and what he described as a lack

of accountability. He said he did not feel his lack of council experience would hurt his chances, since he has had close contact with municipal affairs through his position at the local office of the Ministry of Natural Resources. He commented that as a planner he felt the present council "had made a mess of the Comprehensive Zoning Bylaw," currently undergoing a complete revision.

Five candidates will be seeking the three council seats in Anson, Hindon and Minden. They include the present reeve Lyle McKnight, incumbent councillor Pat Burk and newcomers Bern Berry, Verne Graham and Bob Sisson.

Voters in the municipality will also be asked to indicate whether they would like to have a ward system of representation. If approved, the system would take effect for the 1988 municipal election.

Lutterworth

Residents of Lutterworth Township have a new reeve. Bill Valentine, a member of the present council, won the post by acclamation when his nomination went unopposed. Also acclaimed to office was the incumbent member of the Board of Education, trustee Cheryl Murdoch.

Two Lutterworth taxpayers Glynne Lewis and

(more on page 2)

Slates are set for November 12 vote

(from page 1)

Carol Puffer will be seeking the deputy reeve position on Lutterworth Council. Mr. Lewis is the incumbent.

The three seats on the township's council are being contested by six individuals. They include incumbent Allan Stott and newcomers Jim McMahon, Lisa Mercer, Garwood Stevenson, Ingram Wessell and Elizabeth Wright.

Stanhope

All three races for municipal council will have contenders this year in the municipality of Stanhope. Only the single post on the board of education was filled without a ballot. Leroy Eager, the incumbent, was acclaimed to the post.

Three candidates will be seeking the reeve's chair. The incumbent Harry Davis faces a challenge from present deputy reeve Elgin Stouffer and newcomer Penny Gough.

In the race for the position of deputy reeve, two members of the present council, Elvin Johnston and Dale MacDonald will square off.

The three council seats will be contested by four candidates November 12. Incumbent Ann Barker will be in the race with former Stanhope reeve Jim Harrison, Paul Harrison and C. Jock Mavor.

Dysart et al

A large number of incumbents were returned by acclamation in the municipality of Dysart et al. The present reeve Murray Fearrey, was unopposed when the deadline passed Monday and will continue to lead the municipality's council. Also returned by acclamation were: ward one councillor Dorothy Baker; ward three councillor Lloyd Leadbeater; ward four

councillor Sid Cooper and ward five councillor Glen Hodgson. All are incumbents.

The two municipal council races are for deputy reeve and councillor in ward two. Former deputy reeve Harold Bannon, Bill Davis and Bob Nicholl are seeking the deputy reeve's post. Bannon retired from the deputy reeve's post at the

last election, a post he had held for six years. He served a total of 15 years as a municipal representative.

The second council race has emerged in ward two where incumbent John Parish is facing a challenge from Miles Roberts.

Eight candidates are seeking the five Dysart seats on the board of education.

Incumbents Nancy Stinson and Len Salvatori will be contesting the seats with Wanda Byers, Lynn Craigmyle, Isabelle Keefer, Wayne W. Wood, Larry Podmore, Joan Sawyer. Present trustee Paul Wilson indicated that he would be seeking re-election but withdrew his nomination papers on Tuesday.

(Through a recent redistribution of board of education seats, the representation for the municipality was increased by one to five.)

Snowdon

The municipality of Snowdon is experiencing problems finding enough candidates to fill the three council vacancies. The period for accepting nominations has been extended to today, Wednesday, at 5 p.m. to give at least one more candidate an opportunity to step forward. At the moment only two individuals have indicated an interest in the council seats. They are incumbents Jack Hills and Ron Burk.

(The Election Act allows the municipal clerk to extend the nominating period if positions remain unfilled following the normal deadline.)

All other positions in the municipality have been filled by acclamation. Bob Vick returns to the reeve's chair for another three year term as does deputy reeve Dwain Wruth. Incumbent board of education trustee George Simmons has also been acclaimed to office.

Sherborne et al

There will be only one ballot before voters of Sherborne et al this

November. Incumbent reeve Dalton McDonald is being challenged by Kelvin Stone. All other positions have been filled by acclamation including: deputy reeve Donald Shortreed; councillors Joyce McKee, Edward Vallance and Benn Minns. Shortreed, McKee and Vallance are all incumbents.

The municipality's single seat on the board of education has been filled by incumbent David Villard. He was unopposed.

Monmouth

Incumbents Keith Tallman and deputy reeve Harry Clark have been returned to office by acclamation in Monmouth Township. Board of education trustee Ross Anderson, a member of the board at this time, was also returned unopposed.

The only race in the municipality will be for the three seats on council. Challenging incumbents Jim Deterling and Dwain Tighe will be Joyce Barras, Joanne Coumbs, Gary Stoughton and Larry Strong.

Glamorgan

A series of acclamations have all but eliminated the election process in Glamorgan Township this year. Reeve Bob McCausland has been returned for another term as has deputy reeve Jane Franklin and board of education trustee Cecile Billings, who is a newcomer. Two candidates have filed for the three council spots in Glamorgan. Incumbent Len Madill and Sharon Traviss had filed nomination papers by the deadline Monday. The period for accepting nominations will be extended until today at 5 p.m. to find at least one

more candidate for the seats on council.

Cardiff

The reeve and deputy reeve of Cardiff Township are squaring off for the top spot in the township. Incumbent Mack Peters will be facing the present deputy reeve Ross Duncan in the two way race.

Three candidates have filed for the deputy reeve's position. William Hutton, Maurice Bradley and Bernard McGaughey are the three contenders.

Seven residents are seeking the three council seats in Cardiff township. Incumbents Debbie Donaldson, and Paul Slighte will be up against Jack Johnston, Keith Murphy, Oscar White, Norm Harris and Garth Clark.

In the race for the single board of education seat, the incumbent Linda Mumford will face Rhonda Packard.

Bicroft

The present reeve of Bicroft, Bill Howe is being challenged by councillor Ainsley Dickinson for the top spot. There is not deputy reeve's position in Bicroft.

In what is the largest slate in the county, eleven members of the community are seeking the four seats at the Bicroft council table. The only incumbent in the race is Jack Todd. He will be up against Hans Stevens, Leonard English, Richard Harrison, Victor Dunk, Austin Fultz, Sharon McKenzie, Richard Vickery, Pat Ray, Stanley Miller and Jack Moore.

Bicroft ratepayers share the board of education seat with Cardiff township. The two candidates mentioned in the previous report will

also be on the ballot in the municipality.

Victoria County

Galway-Cavendish

Bill Barnes, a newcomer, has taken the reeve's chair by acclamation in the race in Galway-Cavendish. Bill Halstock and Bernadette Plug will be facing each other in a fight for the deputy reeve's position.

The three seats on the municipal council are being contested by seven individuals. The present reeve Carl Brickman and incumbents Henry Nokes and Harry Stewart will contest the seats with Angela Franzen, Don Bowles, Marylou Bales and Ken Warren.

Somerville

Morris Watson, the incumbent reeve has won another term in office in Somerville Township, again by acclamation. As well, deputy reeve Bryce Young was unopposed for another term in that post.

Six residents are seeking a seat on council. They include incumbents Clayton Cameron, Sue Douglas and Gordon Carr plus newcomers Don Ragan, Erick Watson and John Huke.

Two nominees are contesting the single seat on the Victoria County Board of Education. They are Nonie Campbell and Susan Dinwoodie. Both were trustees following the last election, however a redistribution of education seats in the county reduced the representation from Somerville to one, leaving the incumbents to battle it out.

Laxton, Digby & Longford Reeve David Graham is facing a challenge from Don Wild again this year in the upcoming election.

As well, Mike Riordon the present deputy reeve is being challenged by Laura Gaunt and Gordon J. Bartley. Bartley was a councillor during the present term.

There are eight candidates seeking the three seats on municipal council. They include incumbent Douglas Horton plus Laura Janke, Gordetta Wickie, Doris Bartley, Charles Dunbar, Raymond Norman, Alison Dunbar and Norm MacMaster.

The single seat on the board of education is being sought by four candidates. They include Olivia Detlor, Gwen Peroni, Sandra Valentine and Mary MacMaster. The successful candidate will also represent electors in Carden and Dalton townships.

Over 170 gather for annual Chamber banquet

The ballroom at the PineStone Inn and Country Club was filled to capacity on Friday evening as members and guests of the Haliburton Highlands Chamber of Commerce gathered for the annual meeting. Over 170 people were on hand for the annual banquet and election of the 1986 Board of Directors.

The guest speaker for the evening was Victoria - Haliburton MPP John Eakins, who is now serving as the Minister of Tourism and Recreation in the Ontario government.

The minister commended the members for doing an admirable job over the years, describing the local chamber as being one of the most active in the province.

However, he warned the members not to rest on their laurels, noting, "The challenge facing you in promoting this area is in recognising that we are operating in a highly competitive market environment. You must know who your customers are, what their needs are, and who your competitors are."

By offering, "quality accommodation, excellent hospitality, interesting attractions and value for the dollar, you can make the Haliburton Highland's package attractive to the tourists," he said.

Eakins pointed out, tourism makes up a major sector of the provincial economy, second only to the automotive industry in generating export dollars and that tourism is destined to become the largest single industry in the world by the next century.

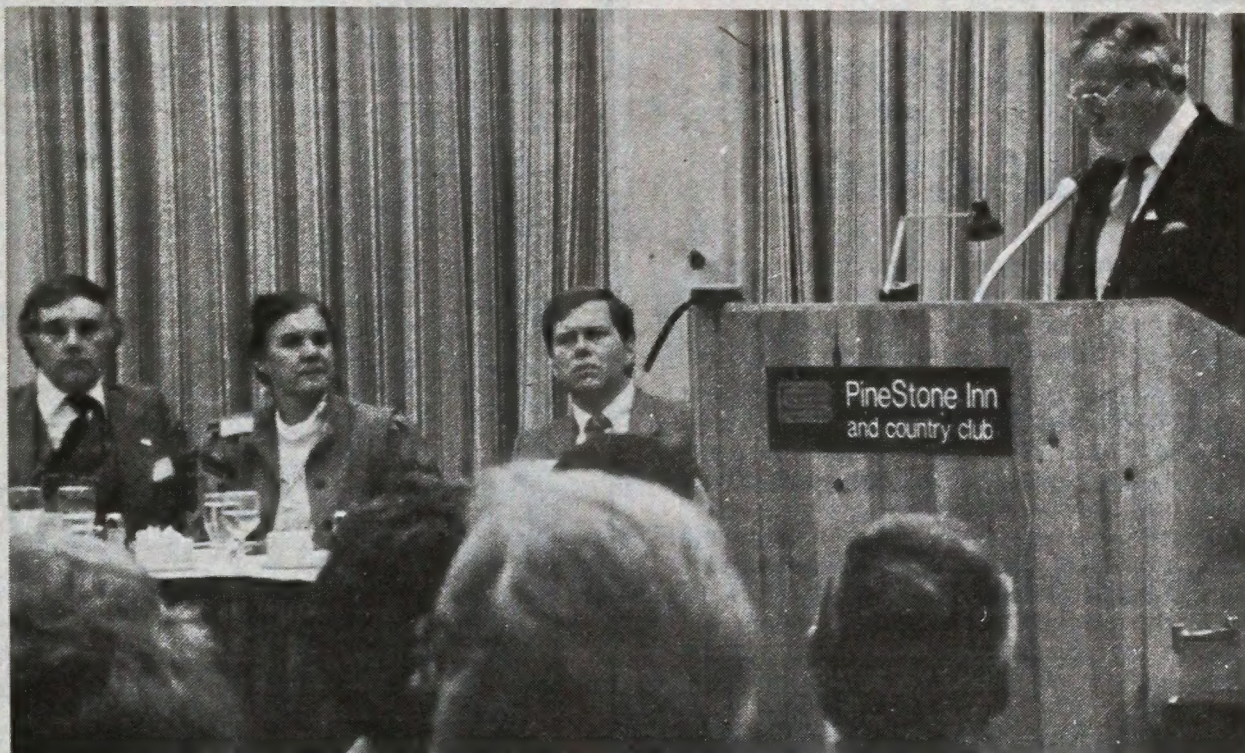

In the past year, tourism has contributed nearly eight billion dollars to the provincial economy that has resulted in one billion dollars in taxes that have

benefited many provincially funded services. Sound planning can benefit this area, Eakins noted, bearing in mind the changes taking place in the tourism field.

"Advances in technology, and changing values with regard to work and leisure, have created a new type of tourist. People now have the time to travel more, and the more they travel the more discriminating they become and the more they expect. Tourists want to be a part of the place they are visiting. They are no longer satisfied just to be spectators. They want to participate and be involved. Their heightened interest in personal fitness also contributes to this wish to participate," he commented.

Eakins placed particular emphasis on the importance of providing recreational facilities. "Fitness is not a fad for the 80's. It is rapidly becoming a daily requirement for the greater part of the North American population. Wise (tourist) operators will adapt their property to meet this need," he said. Noting that fitness has already created a tourist group that has been overlooked, the older adult traveller, Eakins pointed out, "Today's older adult is being encouraged to stay active ... This group is breaking all previous stereotypes and are becoming accomplished, seasoned travellers."

There has been significant investment in the counties of Victoria and Haliburton in the past 15 years and more is possible, Eakins commented. He pointed out the two counties have received seven and a half million dollars in provincial government loans since 1971 that generated a total of thirteen and a half million dollars in investment and in the process

President Ken Langdon, manager Shirley Rapson and director Shawn Hagerman listen attentively as Minister of Tourism and Recreation John Eakins addresses the annual meeting of the Haliburton Highlands Chamber of Commerce Friday evening at PineStone Inn and Country Club.

created 130 full time jobs.

During his visit to the Highlands on Friday the minister discussed proposals with several groups and promised during his speech to, "Do everything possible to work with you to see that you are fairly considered along with the rest of the province." He emphasised the importance of ensuring that the County works together in a cooperative manner on tourist destination projects that are important to the County as a whole.

While making references several times during his address to the competitive nature of the world wide tourist industry, Eakins said the area has a great deal of potential.

While it is accepted that the area can attract visitors from southern Ontario and the northern United States, Eakins emphasised the Highlands can draw tourists from around the world. "The Highlands has been blessed with scenic beauty. The lakes, rolling hills and unspoiled countryside offers foreign visitors a sampling of the real Canadian outdoors."

He urged members to bear in mind a slogan found on the roadmaps issued by the Chamber of Commerce. "Tourism is our only business here in Haliburton. It is not a sideline. We will be going all out to make your stay enjoyable."

With those thoughts in mind the Highlands can grow and prosper and meet the challenge in the world wide tourism field, the minister said.

In his address to the capacity audience, President Ken Langdon paid tribute to Manager Shirley Rapson

and staff member Lorna Hicks for the stability they have brought to the Chamber of Commerce.

He also thanked other employees and members of the chamber and county council noting that although there have been low periods over the past three years, their confidence and support had been of great assistance.

The Chamber has been active in the community he noted, citing the Outreach program sponsored by the chamber, the involvement in the LEAD project through the efforts of past manager Emily Skinner, the support given toward the Haliburton Historical Society in their efforts to establish the Kanawa Canoe Museum in the Highlands and the chamber's co-operation with the Nordic Trail Association.

He pointed out the association will be sponsoring the Master Ski Race next year, adding that the chamber will be involved in the event.

The construction of the chamber office has resulted in a deficit over the past year and more support will be needed from the private sector he said. He advised his fellow members not to look back, but to work co-operatively toward the future.

The new three year marketing plan can provide a framework for these endeavours in a region which has a growth potential greater than any other he commented.

Following the minister's speech, it was announced that all members who had been nominated to the Board of Directors had won

by acclamation. The Board will be meeting on Thursday, October 24 to choose the new executive and the committee members. Those members include: past president Ken Langdon,

directors Shawn Hagerman, Alan Bagg, Robert Cairns, Albert Foster, Bob Jennings, Gary Thurston, Dante Larcade, Al Mayo, Pat Kennedy, Bill Burden, Marj Kennedy and John Mateer.

Zoning bylaw

(from page 1)

in the future.

The properties that will be zoned RLS already have restrictions placed on them under the existing bylaw, Lehman said. He added that it had been his experience in other townships that the RLS zoning increases property values because people want to purchase isolated lots.

In response to the concerns voiced by the ratepayers, Deputy Reeve Ed Pergolas said Council wanted to replace the existing comprehensive zoning bylaw passed in 1967 because it was inadequate and did not fit in with the municipality's official plan. He said he was pleased and surprised at the turnout and suggested the meeting break up into separate groups to allow individuals an opportunity to voice particular

objections.

For more than an hour the ratepayers pored over the zoning maps, and discussed the proposed bylaw with the members of council, the planner and the clerk treasurer.

At 9:30, two hours after the meeting began, Pergolas announced Council had decided to delay the passage of the bylaw "until next month or until all the problems were cleared up." Acknowledging that some mistakes had been made regarding the zoning of specific properties he said changes would be made in the draft of the bylaw and asked anyone who had submissions to inform the clerk treasurer.

Following the adjournment, Council met and decided to hold another public meeting on Wednesday, October 30 at 7:30 p.m. in the municipal office.

Intelligent selection

Preparing this week's report on candidates in the upcoming municipal election, we had an opportunity to review the pages from November 1982 relating the results of the vote.

Of particular note were the voter turn out figures expressed as a percentage of the total eligible voters. The turn out ranged from a low of 7.5% in Lutterworth Township, where there were only two candidates for reeve and a liquor plebiscite, to a high of 44% in Bicroft, where the voters selected candidates for council and school board.

Voter turn out in Haliburton County will always lag somewhat behind the provincial "average", if indeed such a number is calculated. The big reason is the high proportion of seasonal residents who are qualified voters. While these individuals appear to be taking a greater interest in the local political process, the distance between the polling booths here and the permanent homes of seasonal residents will always have a negative impact on voter turn out.

However, we still feel that many individuals are failing to become involved in this important decision making process. The number of candidates acclaimed to office and for that matter, the number of municipalities which are scrambling now to find enough candidates to fill even the seats which are available, provide ample evidence of the lack of interest which seems to be prevalent.

The actions of municipal councils have a direct and immediate impact on our lives and the growth of our communities. Those who care about the future of their municipality, and that should be everyone who contributes their dollars through taxes, must be willing to take an active part in this most basic right and privilege. It may be too late to step forward as a candidate, but it is not too late to become informed about the issues, to quiz the candidates, to approach the ballot box in two and a half weeks time with the best interests of the municipality in mind. Don't let this opportunity pass by - be an informed voter.

Forest quilt

outdoors

Federation of Ontario Naturalists

Ambrosia - Food of the gods. It has a marvellous sound. Yet, those of us all-too-familiar with the agonies of hayfever know this group of plants by a different name - and mood - Ragweed!

The most common is a nondescript plant, 4-14" (10 - 35 cm) tall, with branching, frilly leaves vaguely resembling a carrot top. The green flowers are, to the casual observer, indistinguishable from the plant. We almost all have it growing in the edges of gardens or driveways, or even sprouting from cracks in concrete and pavement.

Hate it as much as one might - you have to respect - almost marvel - at its fantastic success - thanks, that is - to man. Before European colonization, ragweed was certainly quite rare, occurring only in burnt-over areas, blow-downs, abandoned Indian clearings and harsh habitats like sand dunes. In forests, and healthy meadows, it simply cannot compete with other plants, and is quickly shaded out.

But give it disturbed ground - even barren, hopeless looking spots - and ragweed is one of the first and fastest colonizers. It has the remarkable ability to 'suck' moisture from soil seemingly where there isn't any. Little eats ragweed because it's so bitter. (Only the gods of ancient Greek mythology could have eaten the 'stuff'). And even when damaged, it promptly resprouts and flowers from whatever is left. Cleared and bulldozed sites, fallow fields, nutrient poor and constantly disrupted roadsides, gardens and a host of other sites have provided ideal habitat which ragweed has seized - spectacularly!

Like many disturbed - ground colonizers, ragweed doesn't rely on insects for pollination - their numbers are too unreliable in harsh settings. Hence, ragweed doesn't need the colourful flowers which most plants use to attract insects. Instead, it produces huge quantities of pollen, which are simply blown around. A very small fraction finds its way to other ragweed flowers. The vast majority gets blown for miles, and finds its way everywhere and that's where our problem starts.

In breathing, we pump - and filter - great volumes of air through our noses and lungs. In its mucous and hair system, our respiratory tract really is a remarkable filter, capable of removing huge quantities of dust and pollen. In addition to ragweed's pollen quantities, each individual grain is also a monstrous ball - 10 times as large (or more) as other pollens. Built like the spiky ball of an ancient mace, its

It should have been mentioned that Grace Coburn and Norma Barron each received a lovely plaque for their faithful service to United Church. Grace as choir leader and Norma as organist.

These plaques were made by Phyllis Miller, the wife of a former minister.

Florence Robinson,
Minden.

Editor:

All concerned people in this municipality should take serious note re. Nancy Adamson's letter published in your October 9th issue.

This present council, and in particular Mr. Pergolas, have become very arrogant in their dealings with lands owned by the municipality.

After making a complete mess of the giving away of municipal lands for the old Welch store property, their answer was to give away more public lands. It was only through the efforts of Alex Little and the other residents of Blairhampton that one of the last road allowances to Soyers Lake was not closed.

I was consulted not long ago by the Minden Agricultural Society who sponsor the Haliburton County Fair. They had become very concerned due to the fact that certain members of the council were intimating they might not always have use of the present grounds to hold the annual fair. Mr. Pergolas was of the opinion the lands had too great a value for such a use. Further there were possible plans in the future to develop such lands for commercial use.

Fortunately the Society's use of these lands is protected legally but it required a letter to council to put an end to the threats made to the Directors of the Society.

It would appear that Mr. Pergolas feels that he can do whatever he pleases as Deputy Reeve of this municipality. Public lands for use such as parks, playgrounds, fairs and rights of way should not be disposed of for the purpose of profit or convenience to solve a problem (especially a problem caused by Council).

People who make comments like Mr. Pergolas has to Mrs. Adamson, members of the Minden Agricultural Society and I have no doubt others, should not hold elected positions in a community.

It will be most unfortunate if no one opposes Mr. Pergolas for the position of Deputy Reeve, thus giving the people the right to make a choice. The only consolation will be that fortunately he has only 1 vote and hopefully other members of council will not have the same opinions as his.

G. G. Robinson,
Blairhampton.

Fall legislative session begins

- by John Eakins, MPP -

Members of the provincial legislature returned to Queen's Park this month to begin the fall session. While debates in the house have now resumed, the work of my colleagues in the government continued throughout the summer months.

Since taking office in June we have been working hard to address a number of important issues. An example of this is Health Minister Murray Elston's announcement that he will be conducting meetings with groups and individuals throughout the province regarding the system of medical extra billing. Mr. Elston called on Ontario's district health councils to organize one-day community consultations on extra-

billing in nine Ontario cities. Through these meetings, consumers, health care providers and public interest groups will be invited to make presentations.

In early September I visited Japan where I promoted Ontario, not only as a destination for tourists, but also as an ideal province to conduct business with. Earlier in the summer Hugh O'Neil, the Minister of Industry, Trade and Technology visited Japan as well. To compliment these visits and to promote Ontario exports in general, Mr. O'Neill will be hosting a conference on export opportunities in Toronto on October 22 and 23. Trade specialists from the provincial and federal governments will

provide information on how to export to 17 foreign countries as well as 8 metropolitan areas in the United States.

I was also happy to see positive response to our decision to open up the process of awarding government advertising contracts. In early October I announced a new process for systematically choosing agencies to promote Ontario.

The ministry's choice of

an agency will be based on its capability to produce innovative, imaginative and effective advertising designed to aggressively market Ontario as a travel destination.

This decision is designed to give an equal opportunity to all firms, regardless of political stripe. Since making the announcement, I've received correspondence from a number of firms expressing their support for the new process.

A Christmas gift from Canada Post

- by Bill Scott, MP -

Canada Post announced on October 15 that there will be a two cent discount on postage for Christmas cards mailed to destinations within Canada this season. The special stamps will be issued in booklets of ten for \$3.20. They will be available at all postal outlets on November 4. The 1985 Christmas Value Pack is the first part of a long term plan to provide additional postage savings.

As a result of a cooperative effort with members of the Gift Packaging and Greeting Card Association of Canada, the Corporation will propose, for Christmas 1986, a five cent reduction on postage. This rate will be available to users of greeting card envelopes which bear a printed matrix on which the postal code must be "ticked". The specially printed matrix will be featured on at least half of the envelopes available to consumers next year.

This long term plan will offer a substantial reduction in postage costs during the holiday season, while contributing to Canada Post's efforts to process the large amount of mail at Christmas more efficiently.

As well on October 15, the Minister of Employment and Immigration designated the week of November 4 to 10 as Canada Career Week. This year's theme, "Career Transitions", is aimed at all Canadians, from students going from school to work, to people changing jobs, to women entering the work force after a long interruption. Canada Career Week will be co-sponsored by the University and College Placement Association and the Canadian Guidance and Counselling Association. It will feature activities designed to focus attention on career planning.

In the announcement Miss MacDonald stated, "During Canada Career Week we hope that all Canadians will become aware of the tremendous potential of the Canadian Jobs Strategy to help create skilled and lasting employment." This year's slogan, "Ask Me How", encourages all employees and employers to contact their local Canada Manpower Centre and enquire about how the new \$4 billion Canadian Jobs Strategy can help them.

The NEW Kingsman Cabin Stove

Designed for smaller homes and rec rooms the cabin stove has the same quality materials and workmanship that have earned Kingsman its enviable reputation. Its efficient air-tight design gives you longer burn times that save dollars! It's available in black or with beautiful nickel plated cast iron doors, and measures width 25½", depth 15½", height 26½".

Of course if you want more heat you'll want to look at our 1500, 2000, and 3000 step - top models.

All Kingsman Stoves are tested by Warnock-Hersey. Rated to UL Standard 1482 and ULC Standard 627.

Check out . . . the Kingsman line.

It's the Royal Family of Woodburning Stoves.

"We'll be there when you need us"

Education today

submitted by H. D. Robinson

As Curriculum Co-Ordinator for Haliburton County Board of Education, I would like to better acquaint the public with curriculum and programme as they exist in our schools. In this regard, I have asked several outstanding educators from our system to write articles about different aspects of curriculum which, I trust, you the readers will find of interest. These articles will appear periodically in this newspaper.

The first series of articles will be on different aspects of Primary education and will be of special interest to parents with children in Kindergarten or Grades 1 to 3. This week's article is written by Mrs. Ruth Gorrie, Principal of the Victoria Street Elementary School and Primary Consultant, Haliburton County Board of Education.

The value of play in the learning process

Parent: "What did you do at school today?"

Pupil: "Nothing, I just played."

If your child makes this statement you should be pleased. It means his/her teacher is well-acquainted with the ways children learn and is willing to adjust teaching strategies to meet these needs.

Since the Haliburton County Board of Education introduced the Early Identification programme in our kindergartens in 1979 it has been evident through our evaluation and observation of our children that there are three areas of deficit that are predominant. These are listening skills, language, and gross motor skills. In our remediation programme in the primary grades we endeavour to emphasise these areas through play situations (language games, listening times, records, tapes, T.V., story reading and physical games and movement.)

Parents have a great opportunity to observe their children at play. It involves communications (language) with others, listening to the ideas of others and gross and fine motor activities in movement and finger control (puzzles, pouring water). Play is the vehicle for learning these skills.

Research into children's play has accelerated recently as more and more investigators come to realize that play activity interrelates highly with development. Play allows children to form concepts and to develop in mathematics, science, language, problem solving, imagination and reasoning.

Play does not suddenly stop as the child enters a particular grade. Play is the key that helps to unlock the door to learning. A child is naturally curious and interested in exploring the environment (sand, water, earth) as he attempts to understand his world through play.

A teacher who is aware of his/her role in supporting play will better facilitate the play of children. The teacher needs to provide a flexible play environment both inside and outside of the classroom. Manipulation of materials (wood, sand, water, soil, stones, paint, etc.) and free space for interactive and fantasy play (doll centre, blocks) provide a wide diversity of intellectual and social experimentation on the part of the children.

Play is not what you do when your "work" (paper and pencil) is done. Play is the work of children.

Caring teachers and parents interact and respond as the child leads in play. They may share conversation and the joy of learning through play. One needs to focus on the process in play rather than the production of material in order to act as a facilitator of children in play, which is learning at its best.

Some suggested play equipment a home could include: cardboard cartons; crayons; old pillows; wall-paper; wood scraps; magic markers; wool; material; dress up clothes; stones; sand; water; shells; cereal boxes; macaroni; seeds; plasticene; toilet paper rolls; puzzles; waxed paper rolls; records and tapes and books, books, books.

Outdoors

(from page 4)

structure is a natural-built irritant. Like most allergens, ragweed pollen is much more bothersome to some people than to others.

As annuals, ragweed must start afresh from seed each year. But by early fall, its 'luxuriant' growth is at its

peak of flowering, and pollen production.

So ubiquitous is the plant, and efficient is the pollen distribution, that efforts to eradicate it produce - at best - a reduction in the problem. Sometimes, our best efforts to kill it create precisely the best conditions for its growth.

EMPLOYMENT OPPORTUNITIES

If you are unemployed and registered with Employment and Immigration Canada, the following job opportunities are available to you through the Haliburton Highlands Outreach Centre, 457-1316.

JOB OPENINGS FOR THE WEEK OF OCTOBER 21

ACADEMIC UPGRADING

Anyone interested in Academic Upgrading please contact this office and register for acceptance. The course is ongoing from October 15, 1985 - March 25, 1986.

Successful applicants can attend while receiving Unemployment Insurance or you may qualify for a Training Allowance.

Tourism seminar

Central Ontario Travel Association (COTA) is hosting a conference on tourism marketing on Tuesday, October 29 at the Red Oak Inn, Peterborough. All Central Ontario tourism and related operators are warmly encouraged to participate.

COTA is seeking participation from the four main tourism plants: attractions, accommodations, special events, and services.

This is an all-day workshop style event with a soup and sandwich luncheon. Pre-registration is required. For more information, please call the COTA office at Peterborough 705-745-1321. "Grass-roots" input is vital to the establishment of a cooperative marketing plan for 1986-87.

Williams wins title

Greg Williams, 22, of Markham, son of five time world champion John Williams, captured the crown for himself at a hill climb competition recently in Dayton, Ohio.

Greg broke the hill record twice during hte competition and took the title with a 6.44 second ride for the 500 foot tall hill. He defeated Jim Clark, former record holder, who turned in a time of 6.61 seconds.

Greg, riding an STP Special, is only the second individual to hold the championship. His father previously had been the champ.

Wade, the brother of Greg, finished sixth in the season, having experienced motor problems.

FACTS AND FANTASIES

The municipality raises money to operate by selling its services to property owners through a property tax system.

The provincial government also collects taxes and returns a

percentage to municipalities as their share.

Each \$2800.00, spent by our municipality, property owners are assessed approximately one mill tax levy (1/10 of one cent.)

On a property assessment of \$1,000, it would cost a property owner \$1.00 for every mill increase (Assessment value of property is shown on tax bills.)

A way of raising money for capital projects is by issuing debentures for 20 or 30 years. This is a more refined definition of a mortgage.

The core area of

Minden is the hardest hit for debenture payments because of the Water & Sewers. No other area pays this levy.

All property owners are responsible for the debentures issued to build the community centre and the fire hall.

The new fire hall and municipal offices were not debentured.

Because government grants require a 50% participation, we try to establish a working capital reserve so that we are able to participate and not ask property owners for more funds. If we do our jobs and are able to come in under budget, this is where the surplus should go.

Gary Kenney's quote: 'Past councils relied too much, I feel, on volunteers and Service organizations'

However, without

More - next week.

LUTTERWORTH TOWNSHIP

For Experience Economy Progress

Re-elect **AL STOTT** for Lutterworth Council

Minden's duck population increased by six recently when four ducks and two drake Mallards were introduced to the Gull River. The domestically raised birds were released by Ted Vasey who assisted in transporting them from their home at a local farm. The recent additions to the river were paid for by Shirley Brandon and Stuart Brandon of Northland Sales, Minden.

Members of the Katimavik group who spent three months in Minden recently, pose for a final group portrait before leaving for their next rotation in New Brunswick. Saying farewell are, from the left, front row, Paul Wandler, Isabelle Simard, Mark Wallace, second row, Scott Hutchison, Jean Ross, Julie Smit, Vicki VanBakel, Sonia Bonenfant, back row, Loretta Scriver, John Brant, Michel Desilets, and Stephan Vallee.

System assists energy savings

A programmable thermostat is a reliable and inexpensive way to save up to 20 per cent on your heating bill. For example, it lets you program in a temperature reduction to start one hour before you go to bed and end an hour before you get up in the morning. A second setback can reduce house

temperature when everyone is out during the day, and increase it again prior to their return. The most sophisticated models can accommodate complex weekend schedules as well. All types can be used with either forced air or water circulating heat distribution systems.

CORPORATION OF THE TOWNSHIPS OF
ANSON, HINDON AND MINDEN

NOTICE

(FILE NO. 4-85)

IN THE MATTER OF the Municipal Act; and
IN THE MATTER OF a proposed By-law of
the Corporation of the Townships of Anson,
Hindon and Minden to stop up, close and
convey to the adjoining landowners portions
of the original allowance for road along the
shore of Brady Lake lying in front of Lot 1,
Concession 4, in the Township of Hindon.

NOTICE IS HEREBY GIVEN pursuant to
Section 301 (1) (a) of the Municipal Act, R.S.O.
1980, as amended, that the Council of the Cor-
poration of the Townships of Anson, Hindon
and Minden proposes to consider and, if
deemed advisable, to pass at its regular
meeting to be held in the Municipal Council
Chambers on Milne Street, Minden, Ontario,
on Thursday, November 14th, 1985, at the
hour of 10:00 a.m., a By-law to stop up, close
and convey those parcels of land more par-
ticularly described as follows:-

Parts of the original allowance for road along
the shore of Brady Lake in front of Lot 1,
Concession 4, in the Township of Hindon, in
the County of Haliburton, designated as Parts
6, 6, 8, 9 and 10 on a plan of survey deposited in
the Registry Office for the Registry Division of
Haliburton as Number 19R-3363.

AND FURTHER TAKE NOTICE that before
passing the said By-law at the meeting to be
held at the time and place above-mentioned,
the Council shall then and there hear in person
or by his or her counsel, solicitor or agent, any
person who claims that his or her land will be
prejudicially affected by the said By-law and
who applies to be heard.

DATED at the Township of Minden this 16th
day of October, 1985.

Season ends for football Redmen

For the first time in five years, Haliburton Highlands Secondary School will not be sending a football team to the Kawartha West finals.

Both the Senior and Junior Redmen were eliminated for the season in semi-final games played on Thursday.

The Senior team lost 16-8 to I.E. Weldon in Lindsay and the Junior Redmen suffered a disappointing 8-6 loss in Fenelon Falls.

The Senior Redmen began their game against I.E. Weldon on a positive note, scoring on their first possession. After receiving the kick, they marched downfield on a series of plays that culminated with a touchdown by Andrew Burk on an end run.

Scooter Burgess split the uprights for the one point conversion then put the Redmen ahead by 8 points when his wide field goal went through the end zone.

Still in the first quarter, Andrew Burk raised the spirits of his teammates when he ran 55 yards for a TD but the play was called back when the Redmen were charged with holding.

In the second quarter, I.E. Weldon blocked a Haliburton punt and pounced on the ball in the end zone for the touchdown.

The play turned out to be the turning point of the game.

The successful conversion gave the Redmen a slim one

point lead at half time.

Haliburton had dominated the first two quarters picking up nine first downs while the host club managed only one, but the tables were turned in the second half.

In the third quarter I.E. Weldon kicked a single to tie the score, then in the final quarter, added a converted touchdown and a single to win the games 16-8 and advance to the finals.

In spite of the loss there were some fine efforts from

the Redmen. Coach Gary Brohman singled out players Greg Pearson, Paul Allore and Jeff Bain for their determined play.

Junior game

The Junior game between the Redmen and Fenelon Falls was a closely matched contest that was not decided until late in the game.

Haliburton threatened early in the first quarter on a third and two situation but a fumble ended the offensive drive. The teams traded possession throughout the first quarter which ended in a scoreless deadlock.

In the second quarter, Brad Archer intercepted an errant Fenelon Falls pass and ran 60 yards for the first major of the game. The two point conversion attempt failed leaving Haliburton

with a 6-0 advantage at half time.

The see-saw battle continued through the third quarter with neither team able to score.

Going into the final quarter, Haliburton still held the 6 point lead and appeared on their way to a win in the evenly matched contest, but Fenelon Falls took advantage of a mistake early in the final quarter to pull ahead of the Redmen for the first time in the game.

After smothering a Redmen fumble, Fenelon Falls launched an offensive drive that ended in a touchdown.

The single point conversion and an added single late in the game, gave the host club the win in the semi final game.

Two wins for Haliburton Bantams

submitted

The 84/85 All Ontario Championship Haliburton Bantams have started off the season on the winning side.

The Bantams played Bancroft at home on October 11 and in Bancroft October 12

and won both exhibition games by scores of 6-4 and 5-2 respectively. From all reports, the present team is stronger than last year and plays an excellent fast, hard hitting brand of hockey.

Team members are Gavin McKnight, Jeff Francis,

Erin Nicholls, Alan Rydman, Jaro Cooper, newcomer Ted Paish, Jeff Warburton, Scott Russell, Drew Mitchell, Ron Perrin, newcomer Scott Nesbitt, Darren Byers, Scott McKee, Philip Johnston, Greg Scheffee, Brent Flood and Hans Fleugel.

Regular season play for the Bantams starts Friday, October 25 at 8:30 p.m. when they take on Fenelon Falls at the Haliburton arena. Let's make Friday hockey night in Haliburton and cheer the players on as they work toward another All Ontario Championship year.

Bantam management this year is Tom Russell, Denis Byers, Doug Mitchell and special assistant Walt McKechnie.

United Church marks sixtieth anniversary

The Minden United church was filled to capacity on Sunday, October 13, as the congregation, along with former members and visitors, celebrated the 60th anniversary of the present church building, constructed in 1925 and dedicated on January 17, 1926.

The former Moderator of the United Church of Canada was present and delivered a forceful and inspiring sermon on "Pressure points in the diary

of a Past Moderator." He spoke of what it means to be in the Christian church in relation to the great issues of our time, such as racism in South Africa, criminal justice in Canada and world peace, illustrating from his extensive travels and involvement in these causes.

The minister, Clyde Westhaver, conducted the service which included anthems by a choir of men along with the regular choir.

Mrs. Norma Barron and

Mrs. Lorne Coburn were honoured for their long years of service to the music of the congregation. Mrs. Gala Heal presented to Mrs. Barron a beautiful framed scroll commemorating her service as organist and Mrs. Harold Deacon presented roses.

A similar scroll was presented to Mrs. Lorne Coburn by Mr. Robert Herlihey in recognition of her years a choir leader, along with roses presented by Mrs. Roy Colliss. The scrolls which were exquisite works of art, were made by Mrs. Douglas Miller of Brampton.

The service was followed by an hour of fellowship and refreshments in the newly-carpeted church hall. Mrs. Annie Kernohan, president of the United Church Women, shared with Dr. Clarke MacDonald, the honour of cutting the birthday cake.

The church sanctuary was beautifully decorated in keeping with Harvest Festival for the occasion.

Mrs. L. Cox, Convenor of Citizenship and World Affairs, then had Mrs. Lacey show two films, "We are the World" and "This is a Photograph". She then led us in a discussion of Multiculturalism and gave a report on the A.C.W.W. Project in India.

All enjoyed a snack and cup of tea. Next meeting will be November 20 at the same time and location with all ladies welcome.

Jeanne Sears, PRO

Minden W.I.

The October meeting of Minden Women's Institute was on the 16th at the Library Cultural Centre with Mrs. C. Lacey welcoming us and one guest. After the usual opening the Roll Call of a "Custom of another country", brought varied replies from the sixteen members. The Home and Country magazines were given out.

The Card Report from Mrs. Moore, brought by Mrs. A. Coulter, had 14 cards sent since the last meeting. The correspondence was read and included an invitation to Bobcaygeon Brach's 85th Anniversary November 16. The resolution was voted upon so that our delegate Mrs. Lacey could take our wishes to Area Convention. Plans were made for the District Craft Day at Fenelon Falls on October 23rd. The meeting then adjourned and on the little draw Mrs. L. Sedgwick was the winner.

All home games Friday night (during regular season).

Kickers head for finals

The HHSS Senior Soccer team capped off their regular season with a 3-1 victory in Fenelon Falls on Wednesday, October 16 to advance to the Kawartha West Finals.

The win gave the team a 5-1 win-loss record over the season.

Haliburton jumped to an early lead in the game when midfielder Paul Milne found the mark after taking a pass from forward Dennis McKee. Haliburton continued to hold the advantage

and increased the lead to two points on a goal by forward Lasse Roslund from Bill Wullemme.

In the second half, the host club narrowed the gap scoring a single but Tom Eager put the game out of reach after taking a pass from Lennie Johnston and Jeff Barry.

Coach Glenn Scully commended the players for their fine team effort. In addition to the players who had a hand in the goal scoring, he singled out centre John

Vanderhorst and midfielder Eoin Ross for strong performances that contributed to the team's victory.

The playoffs begin in Haliburton today, (Wednesday, October 23). The Haliburton team will be hosting I.E. Weldon. During the regular season the clubs split a pair of games. Haliburton won the first game 3-1 then narrowly lost the second game by a 3-2 margin for their only defeat of the season.

The playoff game for the

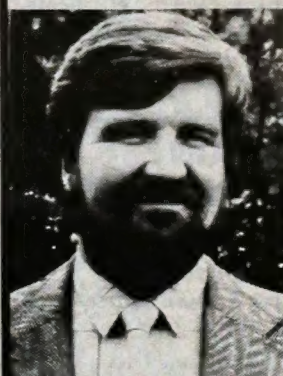

Kawartha West Cup takes place at the HHSS soccer pitch beginning at 2 p.m.

Cross country victory by Minden school

The friendly rivalry between J. Douglas Hodgson Elementary School and Archie Stouffer Elementary School continued last week with the running of the eighth annual Haliburton Cross Country Run in Minden.

64 runners from the two schools took part in the race on Friday afternoon under challenging, muddy conditions.

The team having the lowest aggregate score according to the position of the first five runners at the finish was declared the winner. A first place finish was awarded one point; second place two points and so on.

The team representing Archie Stouffer School raced to a narrow victory over the visitors, scoring 110 points to 114.

Team results and individual finishes over the mile and a quarter course including times are as follows:

Haliburton: Senior Boys 35 points, Senior Girls 22 points, Junior Girls 26 points, Junior Boys 31 points. Total 114.

Minden: Senior Boys 20 points, Senior Girls 37 points, Junior Girls 29 points, Junior Boys 24 points. Total 110 points.

Individual results in order of finish and times for the top four runners include:

Junior Girls: Kim Pockett, Haliburton 11:30; Janna Obee, Minden 11:45; Arlene Simmons, Minden

The winning cross-country team from Archie Stouffer Elementary School included, from the left, front row, Janna Obee, Abby Burk, Tammy Walker, Stuart Mills, Larry Little, Sherry Wesley, Kelsey Newbatt, Jeff Bunn, Angela Grozelle and Lisa Valentine. Centre row: Dean Sisson, Nancy Bird, Marjorie Phillips, Mark Klages, Lisa Carr,

Arlene Simmons, Shawn Steel, Carrie Warder, David Nicholls and Darren Sawyer. Back row: Jerry Cooper, Mr. McKinlay, Kim Johnson, Karen Cooper, Derrick Moore, Tammy Cox, Hunter Obee, Craig Smith, Kent Taylor, Greg Cairns, Robert Willbee, and Tim Reid. Absent was Melanie Maxwell.

11:55; Shelly Pockett, Haliburton 12:11; Tammy Fair, Haliburton.

Guides enjoy trail ride

submitted

On Saturday, October 21 twenty-one girl guides of the First Minden Company spent the day on a horseback and exploration outing at the Beau Valley Riding Centre on the Queen's Line in Minden Township.

Organized and led by

Guiders Shirley Warder, Bonnie Ackerblade, Marilyn Rowden and JoAnne Howard, the girls split into three groups which alternately learned horse handling and riding and took a four-mile observation hike. The hike required that the girls collect infor-

mation on forest flora and wildlife and clues on early settlements now reclaimed by the forest.

The Guides used the occasion for "challenge work" to acquire guiding merit badges. The girls built a campfire to cook their meal along the way and

filled a booklet with their discoveries. The older Guides completed work for their horseback riding by learning to saddle-up. The younger Guides were introduced to riding and some to horses for the first time.

It was a challenging and satisfying way to pass such a beautiful October day.

TOWNSHIP OF STANHOPE VOTERS

C. JOCK MAVOR

It is my desire to represent you as Municipal Councillor for the upcoming term of office.

For fourteen years I have been a seasonal resident of Stanhope Township and became a permanent resident two years ago.

The concerns and interests of the voters are of primary importance to me and I am willing to devote the necessary time and effort to adequately represent you as an elected member of Stanhope Municipal Council.

Psychogeriatric services needed: Prowse

The program offered by the Haliburton County Support Services continue to expand, offering needed assistance to senior citizens throughout the Highlands, but there are still some needs that have not been met.

The need for additional services was made apparent at the fall meeting of the Home Support Services at PineStone Inn and Country Club on Friday. The more than 120 volunteers who attended the lunch and meeting which followed, were told that the services offered by home support have expanded significantly in the past two years.

Programs such as the Meals to Wheels, Home Help, Friendly Visiting, Fone a Friend, Transportation and Meals on Wheels are reaching more and more seniors.

As an example, 2,728 meals were delivered to seniors in their homes in the year prior to September 1983. In the past year, the program expanded to serve nearly 4400 meals.

The Fone a Friend program increased from 742

Dr. Arthur Prowse

calls two years ago to 3049 over the past year.

While the many volunteers who participate in Home Support have been

able to provide needed community work, there is a need for more specialized care, according to Dr. Art Prowse the acting director

of psychiatric services at the Peterborough Civic Hospital.

The guest speaker told the meeting, a study completed in 1982 by a sub-committee of the hospital's mental health services, revealed there was a great demand for psychogeriatrics and that the needs of the elderly in the Peterborough region were not being met. He blamed the lack of care for the elderly on the attitudes of both potential patients and therapists.

Medical professionals may be unwilling to work with elderly patients and don't want to be overwhelmed by the added caseload, while, on the other hand, those needing help, may be suspicious of psychiatry or may be unaware of available help.

Transportation difficulties in a largely rural area also contribute to the problem, Prowse said. While the assessment study showed a need for services in the Peterborough region, Prowse said there is a need for psychiatric services for seniors throughout the four counties of Haliburton, Northumberland, Victoria and Peterborough.

Of the nearly 227,000 residents of the four counties, almost 32,000 are aged 65 or over and this ratio of seniors to the general population is growing. 18% of the population of Haliburton County is aged 65 or older; the highest ratio in the province Prowse said.

Based on studies that have been conducted in the field of psychogeriatrics, Dr. Prowse estimated from 8000 to 10,000 seniors in the four neighbouring counties could benefit from psychiatric services, such as self-help groups, psychiatric counselling and medical care for such disorders as Alzheimer's disease.

Attempts are being made to meet the needs of the elderly in this region.

Dr. Prowse said he has begun to make monthly visits to Senior Citizen's homes in the county and, with the assistance of public health nurses, physicians and community groups, mental health programs can be established or expanded.

These include home support services, rehabilitative programs, day care programs, half way homes and self-help groups.

"Help will be available and we will be attempting to do the best we can within our budgets," he said.

During the discussion period that followed his address, Dr. Prowse was questioned on funding of the program and whether financial assistance was available to transport seniors to clinics.

Dr. Prowse pointed out the Ministry of Health does provide funding under the Community Mental Health program and that OHIP covers medical costs but currently more assistance is needed to help people get to the community program at Peterborough Civic Hospital.

One of the members of the audience commented that many of the home support volunteers are seeing mental health problems among the elderly and asked what steps could be taken to offer help in this area. Dr. Prowse said he would be willing to talk to members of the Home Support to assess the needs of the elderly in this area and suggested the establishment of a group support program as a first step.

Time is right for identifying buckthorn

- Ag report -

Do you have any shrubs which are still covered with dark green leaves, growing around your farm? If so, those shrubs are most likely buckthorn.

Buckthorn continues to thrive in the farming areas of Victoria County, and across Central Ontario. Buckthorn is the alternate host for oat rust, a disease which affects oats and makes it very difficult for farmers to grow milling quality oats. It's those milling quality oats which have a ready market at Quaker Oats in Peterborough, and that can give a good financial return to the farmer growing them.

While buckthorn is fairly easy to identify at any time, the best time to quickly and easily spot it is right now. The leaves on most other kinds of tree and wild shrub have either fallen off or turned colour by late October. Buckthorn leaves are still a dark green and are almost all still on the branches. So when you look at the shrub growth in a fence row and along a roadway this week, if there are any shrubs with dark green leaves still on the branches, that will most likely be a buckthorn shrub. Lilac bushes will have light green leaves still attached.

A number of property owners have wondered whether or not they have any buckthorn growing - take a look this week and you'll know. Information on how to control buckthorn is available from your County

Agricultural Office.

Swine genetics seminar

On January 2, a new hog grading system will take effect across Canada. This is just one of the topics to be discussed at the Ontario Swine Genetics Workshop, to be held at the Rock Haven Motel, Peterborough, on November 20.

The program is geared toward commercial pork producers who plan to stay in the business and to swine breeders who want to increase their competitive edge.

Dr. William Ahlschwede, swine extension geneticist, University of Nebraska, will discuss the use of breeding systems to increase dollars in a commercial enterprise.

Dr. Brian Kennedy, a geneticist from the University of Guelph will outline the use of estimated breeding values in the selection of breeding stock. His co-worker from the same university, Dr. Gordon Bowman, will share his insights into the needs of the industry as seen by the commercial producer. Charles Lalonde, Associate Director of Quality Assurance for Red Meat Products, Agriculture Canada, will outline the new grading system.

This program is provided by pre-registration only as the number of participants may be limited. Registration forms are available from the Lindsay Agricultural Office.

ANSON, HINDON & MINDEN VOTERS

Sharing your concerns and hopes for our community, I wish to represent you on municipal council.

On November 12

VOTE BOB SISSON

TOWNSHIPS OF ANSON, HINDON AND MINDEN

NOTICE TO THE ELECTORS OF THE TOWNSHIPS OF ANSON, HINDON AND MINDEN QUALIFIED TO VOTE AT A MUNICIPAL ELECTION.

NOTICE is hereby given in accordance with the Municipal Act, and pursuant to By-law No. 85-38 passed on the 29th day of August, 1985, that a poll is to be held upon the following question:-

"Are you in favour of the division of the municipality into three wards for the purpose of having a council composed of a Reeve and a Deputy Reeve, each to be elected by general vote, and a Councillor to be elected for each of the three wards?"

The day fixed for taking a poll shall be TUESDAY, NOVEMBER 12, 1985. Two advance polls will be held on SATURDAY, NOVEMBER 2, 1985, and SATURDAY, NOVEMBER 9, 1985.

I, Beverley Anne Millar, Clerk of the Townships of Anson, Hindon and Minden, certify that the question set out herein is a correct statement as authorized in By-law No. 85-38.

(Ms.) B.A. Millar, A.M.C.T. (A)

Highlands charity reaches India

Charity is very much alive in Haliburton County.

In a recent appeal to members of the local Anglican, B'hahi, Roman Catholic and United congregations, sufficient funds were immediately raised to assist a man in South India who is urgently needing a heart operation.

Through H.A.V.E.'s Walk for Wells and Walk for Water, 18 pure drinking water wells have been drilled, within the past few months, in villages near Hyderabad and Bangalore, India.

Currently, a few teachers are considering how best to help a music teacher (and his family) who teaches blind children in Alwaye Village, Kerala, India - while he attending a school to upgrade his teaching skills. Charity has not only begun at home, it has extended to those in desperate need on the other side of the same global community.

At the High School in Haliburton on Saturday, November 2 (8 p.m.), the third Haliburton Artists Variety Evening will take place. The following artists will perform: Glenn Carter,

Ellen and Ken Hadley, John Miller, Gordon Munro, William Sherwood, Nancy Robichaud, Melissa Stephens, Mary and Richard Stouffer and Rick Vaughan. These artists from Haliburton and Toronto will provide us with a wide variety of excellent music. This year's performance will have something for all ages and tastes.

Admission to the concert is free. However, all donations will go toward providing school wells in The Gambia, West Africa. H.A.V.E. will supply official receipts for income tax purposes and CIDA has indicated that it will match dollar for dollar all monies which H.A.V.E. receives for developmental projects in Third World countries.

At this annual concert, County residents and visitors will have another opportunity to (a) hear and meet top notch performers at home and (b) assist some less fortunate persons abroad to help themselves.

Principal attends seminar

Young children are feeling the greatest impact from our changing society. In response to these societal changes the Ministry of Education established the Early Primary Education Project.

The Ministry is re-emphasizing a most critical and decisive period in the 3 to 9 year old child's development. Frances Poleschuk, as Director of this project, spoke at the inaugural meeting of the Consultants and Co-ordinators Association in Primary Education which was held on October 4 in Etobicoke.

It was unanimously decided that C.A.P.E. will lend its full support to the Early Primary Project and will act as an advocacy group for the cause of young children across the province. There were representations from most Boards of Education in Ontario.

Mrs. Ruth Gorrie, Primary Consultant for Haliburton County Board of Education was in attendance.

THE PLANNING ACT 1983

NOTICE OF THE HOLDING OF A PUBLIC MEETING FOR THE PURPOSE OF INFORMING THE PUBLIC AND HEARING REPRESENTATION IN RESPECT OF A PROPOSED COMPREHENSIVE ZONING BY-LAW UNDER SECTION 34 OF THE PLANNING ACT.

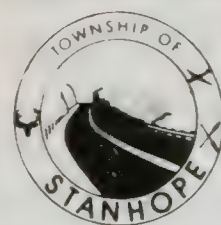

TAKE NOTICE that the Council of the Corporation of the Townships of Anson, Hindon & Minden will hold a public meeting on Wednesday, October 30th, 1985, at 7:30 p.m. in the Municipal Council Chambers on Milne St., Minden to consider a proposed comprehensive Zoning By-law under Section 34 of the Planning Act.

THE PROPOSED comprehensive Zoning By-law will consolidate and update all land uses within the Townships of Anson, Hindon & Minden. This By-law will implement the recently approved Official Plan for this municipality.

ANY PERSON whose concerns have not already been met are invited to attend the public meeting and/or make written or verbal representations either in support of or in opposition to the proposed Zoning By-law, or any portion thereof.

Enhancing the fish potential of the Highlands: there are no easy answers no simple solutions

"Why, I remember the old days. Everytime you cast your line you would get a bite. Guaranteed! It's not like that anymore. Fishing just isn't what it used to be."

Sound familiar?

To find out if those oft repeated comments hold any water, we spoke to Ministry of Natural Resources biologist, Wayne Wilson, at the fisheries management planning open house held in Minden last week.

The open house was held to assess public opinion on the Ministry's five year short term program and a longer plan that will affect management practices until the turn of the century. In answer to the question "Is the fishing in the Highlands worse than in the past?" Wilson responded, "It depends on the lake. In the Twelve Mile system, the whitefish catches are down from what they used to be. Looking over the past 50 years lake trout catches are also down. But in some lakes the lake trout fishing is better because of the stocking programs. We have also stocked brook and rainbow trout in lakes that were barren, to improve the overall fishing potential."

According to the biologist, there has been mixed reactions to some aspects of the proposed management plan. Some people have criticized the proposal to close some lakes in the district to winter fishing, while others think it is a good idea to try the program on a few lakes before attempting it on a larger scale.

"Closing some lakes to winter fishing is by no means the biggest issue and in fact is just one of many, but people generally support

our program," he commented.

Wilson said visitors to the MNR office have commented the open house has allowed them to provide input and learn more about the management program. "One common response is that people are not aware of the complexity of the situation. They think we only have to deal with one problem such as the effect of acid rain but they come to realize there are a lot of inter-related factors."

Complex best describes the situation facing the ministry in establishing a fish management program.

The Minden District covers slightly less than 4700 square kilometres and includes 1322 lakes over 5 acres in size. If the lakes are healthy and stress on the fish habitat minimal, 157,334 kg. of fish can be caught on a sustained yield basis each year.

But there are numerous factors that affect fish populations.

Many stress factors

The introduction of rock bass, perch and smelt into many lakes is one of the major problems affecting native fish populations such as brook trout. A half dozen rock bass dumped into a lake out of a bait bucket multiply rapidly. Full grown rock bass not only compete for the food supply with native fish, they also eat the small young trout and can eventually wipe out the trout population. (If you are wondering why large trout don't eat little rock bass, the answer is simple. Rock bass have sharp spiked dorsal fins that discourage predators. According to one MNR biologist, no fish will eat rock bass because of those sharp spines.)

The overharvesting of lake trout is another major problem. According to statistics prepared by the MNR, lake trout are the most sought after game species in the Minden district. 39% of all anglers prefer lake trout but the species accounts for only 8.4% of the total allowable harvest.

The pressure on the fish population becomes more crucial when one considers the importance of species that reproduce naturally. As an example, Wilson cited Drag Lake. "In all of Drag Lake there may be only one hundred large spawning lake trout. They maintain the fishery through natural reproduction. If 25 of those large fish are caught, we have lost one quarter of the spawning fish."

Most fish that have been raised in hatcheries and later released do not reproduce. Consequently, "In most cases to maintain fish populations, we have to keep stocking the lakes," Wilson said.

Approximately 90% of all lake trout lakes in the district and almost all brook and rainbow trout lakes have been stocked in the past beginning in the 1920's and these fisheries are maintained through stocking programs.

About 40% of the fish caught annually in the district were raised in artificial hatcheries.

The effect of acid rain on fish species has been documented and remains a major concern to the MNR. A study of 150 lakes in the district showed 32 of those lakes are extremely sensitive to acidification.

Limestone which occurs over much of the district can act as a buffer against the

acid rain but the northern two thirds of the district is granite. Consequently there is no natural buffer to counteract the effect of the most acidic precipitation in the country.

While the problem of acid rain reaches international proportions the fluctuation of water levels in area lakes is more localized but does cover a region far greater than the Minden District.

Many lakes in the region serve as reservoirs for the Trent-Severn Waterways system. Parks Canada regulates the amount of water entering the system south of Haliburton County through a series of dams. Low water levels can leave spawning beds high and dry seriously affecting future fish populations, but as noted in a report issued by the ministry, "Water level fluctuations do not seriously impact brook trout, rainbow trout or warmwater fisheries in Minden District." There are concerns however over the possible effect on lake trout spawning grounds.

There are other factors involved in the future fish management program such as limited access to lakes, reduction of water quality through inadequate sewage systems, over-development of lakeshore properties and a projected high demand for smallmouth and largemouth

bass.

The management program proposed for this district affects not only anglers, it has a significant impact on the economy of the region. At present lakes provide one and a quarter million person hours of angling a year and this figure is expected to increase by 15% by the year 2000.

For those interested in

commenting on the proposed management plan, questionnaires are available at the Minden office of the MNR. These questionnaires should be returned to the ministry by October 28.

A second open house will be held early in the new year allowing the public to make further comments on the final draft management program.

Wilberforce hosts UCW rally

submitted

The Region Six Rally of Lindsay Presbyterian of United Church Women was held at Wilberforce on October 9. The theme of the day was, "Forgiveness - A Clean Heart".

Mrs. Nada Vaughan, the chairperson, opened the rally with a call to worship. The Lochlin U.C.W. led in a period of devotions. The circumstances of life were compared to the seasons of the year. It was shown that our lives have characteristics of each season and a complete life needs changes and experiences. God is ready to help us through all these.

An invitation to the 1986 rally was extended by Carnarvon U.C.W. The soloist, Barbara Fawcett,

sang two songs of praise with audience participation. Mrs. Olive Macdonald, President of Presbyterian, extended greetings from the Presbyterian and introduced Presbyterian officers.

In the reports, some special concerns of U.C.W. were mentioned: action against pornography, drug and alcohol abuse and South African boycotts.

During the lunch period Mrs. Mary Winterbottom supervised the book display. A memorial service conducted by Ingoldsby U.C.W. was presented. The speaker, Mrs. Nada Vaughan of Haliburton pointed out different steps and aspects of forgiveness. She noted that we should measure ourselves with Christ, not with one

another. The first step toward forgiveness is vision then awareness followed by forgiveness.

The two closing thoughts were, Forgiveness begins with me, and Forgiveness brings a new beginning.

LUTTERWORTH VOTERS

Property rights being threatened

Private property rights are under attack in all levels of society, members of the Haliburton Real Estate Board were told recently.

The comments were made to a gathering of local real estate agents at the Bonnie View Inn on October 9. The members were joining in the nationwide celebration of Private Property Week.

Guest speakers included Lynn Craigmyle, manager of Bowes and Cocks in Haliburton, author and historian Nila Reynolds and Shirley Rapson, manager of the Haliburton County Chamber of Commerce.

The erosion of private property rights was the main theme of Craigmyle's address. Private property has become a symbol of success and personal freedom to the more than sixty percent of Canadians who own property, he said. "We have rejected the concept of communal ownership and through the private ownership of property, we believe we are the masters of our own fate and are able to control our destiny," he said. However, a steady increase in restrictive laws, including 700 provincial regulations alone, has eroded our individual rights, Craigmyle commented.

He cited several examples of expropriations and projects that were shut down by government regulations, arguing that if such expropriations are deemed necessary for the public good, fair and just restitution must be made. But, he pointed out, the Charter of Rights and Freedoms in the new Canadian Constitution does not recognize property rights and therefore there is no guarantee that just restitution will be made.

The Ontario Real Estate Association, along with the governments of British Columbia and New Brunswick, are lobbying for the entrenchment of these rights and there are indications the Ontario government supports this action.

The issue of property rights goes far beyond the issue of expropriation, he said, noting that although Canadians take these rights for granted, unlike the more than twenty other democracies in the world, Canada does not guarantee or protect property rights.

Haliburton County historian and author Nila Reynolds recently addressed the annual meeting of the Haliburton District Real Estate Board. She presented an interesting and informative speech on early development of this part of the country. District realtor and member of the association's executive Lynn Craigmyle, seen here, was one of many members attending the event at Bonnie View Inn.

On a positive note, Craigmyle reminded members present that Private Property Week, which ended appropriately on Thanksgiving, was a time to honour Canada's heritage and a celebration of our rights and freedoms.

The heritage of Haliburton Highlands was the theme of Nila Reynolds address, and there is no one more qualified to speak on the region's history than the author of the 1968 publication "In Quest of Yesterday."

In a delivery reminiscent of the style of the book, Mrs. Reynolds described the rich and colourful past of the Highlands and paid tribute to the pioneers and their accomplishments.

The greatest asset of the Highlands is not the rocks, trees and beautiful scenery, it is, and always has been, the people, she said.

While emphasising the potential of the people of this county, she reminded her listeners not to lose sight of the past. "The railway is

gone and much of the prime forest and how many people realize that at the site of the Minden White Water Park one hundred years ago, two men died in a log jam?" she asked.

To emphasise her point, she noted that of the 170 pioneers she interviewed in preparation for her book, only thirty are alive today.

Shirley Rapson also paid tribute to the heritage of the county and the people who settled this area and told her audience we also must be pioneers to establish a year round economic base in the Highlands.

Over half the region's economy depends on tourism, she said, and to ensure a prosperous future, efforts must be made to ensure the county becomes a year round destination.

The Chamber of Commerce is hopeful that this can be accomplished she said, but noted that the destruction caused by acid rain is having a serious effect on the region. The millions of tons of acid rain that fall

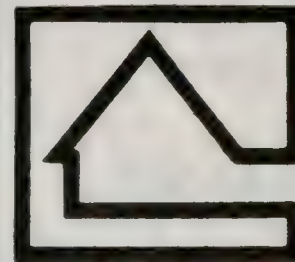

on the county each year, have already created barren lakes and an estimated 48,000 lakes are endangered.

Acid rain causes over \$200,000,000 in losses in the forest industry alone each year and also affects our historical buildings and properties, she said.

To emphasise the impact acid rain has on this region, Mrs. Rapson produced figures to show that readings taken at Dorset the previous week showed the rainfall approached levels of acidity that are considered dangerous to plants and animals.

She ended her address on a note of optimism, stating the problem can be overcome, but cautioned "It will be expensive to cure, but we have a choice; to pay a little now or a lot later."

The Devonian Duo, flautist Susan Hoepfner and pianist Robert Kortgaard, offered a lyrical programme of classical and jazz selections to open the Haliburton Guild of Fine Arts Concert Series Monday evening at the Haliburton Highlands Secondary School. During the season five concerts will be presented featuring promising young artistes as The Guild celebrates International Youth Year.

Street safety tips for school-aged children

For many children, the day begins with a walk to school. For most, this is a time to get together with classmates, to exchange stories and lunches. But for some, the walk to school is marred by tragedy. Approximately 100 young pedestrians of ages 5 - 14 are killed each year in this country; many more are injured, some resulting in permanent disabilities.

Unlike the adult's, a child's peripheral vision and body co-ordination have not yet fully developed. These physical disadvantages, when coupled with a lack of experience in judging a vehicle's speed can make the traffic environment a hazardous place, especially if the child does not possess a sound knowledge of the rules of the road.

October 17 - 23 is School Safety Week and the Canada Safety Council urges all parents of young

children to take this opportunity to review, model and practice the basic rules of traffic safety with their children:

Look all ways before stepping off the curb. Do your own looking - don't rely on the person ahead of you;

Don't jaywalk. Cross only at intersections or at mid-block crosswalks where drivers will be more alert to pedestrians;

Walk, don't run, when crossing the street;

Where there are no sidewalks, walk in single file off the road pavement on the left side, facing oncoming traffic. In this way, you will be able to see oncoming vehicles and, if necessary, step to the left out of their way;

Where there are traffic lights, obey the 'WALK' and 'DON'T WALK' lights;

Keep away from parked cars. Stress that children should never accept a ride to

school from a stranger, even if they are late or have missed the bus. Explain that strangers can be old or young, male or female and that sometimes people will try to lure children with treats or false excuses (i.e. "Your mother asked me to drive you home");

Play in safe places, away from traffic;

Ride bikes safely and

obey all signs and signals.

Wear a seatbelt at all times while riding in the car;

Secure retro-reflective materials to outer wear (i.e. school bags, running shoes, jackets, rainwear, bicycles). This is recommended to make children more readily visible to motorists. Retro-reflective tape can be purchased at most hardware and sporting goods stores.

Keep your kids in their place...

It's the law for everyone travelling in a car... but too many people don't secure their children properly.

For example:

- Small children must have harness straps fastened.
- Child safety seats must be attached to the car by the seat belt.
- When required, tether straps must be fastened.
- Shoulder belts or harnesses should not be under the arms.
- Lap belts should be low on the hips.

Child safety seats are only effective in reducing injuries when they are used properly.

Buckle them in.

Branch 129 news

by Gerald Irish

Branch 129 had ten representatives at the Zone Council meeting in Woodville on October 6. Comrade Zone Commander Mel Robertson had the meeting well arranged and the reports of the various branches in our zone were most interesting. After listening to all twelve branch reports, it was evident that your Branch need not take a back seat to any of the others.

How lucky can some people be? The group that visited the Grand Ole Opry in Nashville on Thanksgiving weekend were indeed fortunate! The performances by 29 Country Western stars were in celebration of the 60th birthday of the

Grand Ole Opry and some Branch 129 members and friends were there to participate in the celebrations. Their 60th year coincides with the Royal Canadian Legion's Diamond Jubilee (60th) year.

We were entertained by such stars as Larry Gatlin and the Gatlin Brothers, Charlie Pride, Porter Wagoner, Justin Tubb, Hank Snow, George Hamilton IV, Stonewall Jackson, Wilma Lee Cooper, Jean Shepard, Del Reeves, Lorrie Morgan, Jeannie Seely, Roy Acuff and many more.

While in Nashville, we visited Opryland and had a tour of the city.

This was a long trip and a bit exhausting (especially for those who had to work on Tuesday) but a great time was had by all. Much thanks

must go to our drivers, Jim and Jack. They really took good care of us.

Other bus trips are in the planning stages. Watch the bulletin board in the club room for announcements about future trips.

On Sunday, October 27, a bus load of Legionnaires and friends will be going to a Service of Remembrance in Brechin. If you have not already signed up for this trip, do so quickly. The posting is on the club room bulletin board.

Comrade Keith Brannigan ran a highly successful turkey/steak roll on Thanksgiving Saturday. Thanks Keith. As usual, a job well done. Mr. and Mrs. Alan Giles also provided yeoman service for the Legion.

Friday, October 18 was "Persons' Day". It was on that date in 1929 that the legal systems recognized women as "persons". Prior to that date, only men were "persons".

Start getting your Hallowe'en costume ready. We are having a Hallowe'en dance on Friday, November 1st from 9 p.m. to 1 a.m. in the Legion club room. These costume parties are always loads of fun.

The annual Legion Hunters' Ball is coming soon - November 8. Bucks - \$2.00 each. Does - free. Music will be provided by Cimmeron and there will be door prizes and spot dance prizes.

Remembrance Day will soon be here. With that in mind, I have a poem for you written by a young lady in

Grade 5.

Take A Little Poppy
Take a little poppy
And stick it in a hat.
Many people died,
We should remember that.
They died to save our
country
From the enemy.
Don't you think that's great?
Just to keep us free.
We take freedom for
granted.
That's why one day each
year
We take a little poppy
And shed a silent tear.

Did you know?

Did you know...that your Haliburton County Information Centre has copies of the latest edition of 'Horizons', a publication prepared by the Ministry of Colleges and Universities?

Horizons is a comprehensive guide to the many educational opportunities to students after they have completed secondary school. This useful publication describes the many options open to you as you embark on the next phase of your educational career.

Horizons gives a brief summary of the programs offered in the Colleges of applied arts and technology and the universities as well as outlining other opportunities of continuing your education.

By presenting the various choices, Horizons helps you decide how to tailor post secondary education to your particular needs. Whether you are interested in a university degree, a college diploma, refresher courses,

on-the-job training, or correspondence courses, Horizons serves as a useful resource. If you lack the necessary resources to continue your education, the Government of Ontario can help. In 1984-85 some 105,000 students received aid from the Ontario Student Assistance Program.

If you would like further information on this and many other subjects, contact your Information Centre today. Our office is open 10 a.m. to 4 p.m. weekdays and we are located in the Drag River building in Haliburton. Why not drop in, or give us a call at 457-2733. Remember, you will never know the answer until you ask the question.

around the county town

Call 286-1288 — 9 a.m. - 4 p.m.

Don't forget movies for children at the library-cultural centre on Friday evening from 7:15 to 8:15. Admission is, as always, free.

Badminton has once again commenced at Archie Stouffer Elementary School. Adult badminton is every Monday night from 7:30 to 11:00 p.m. The exception being the first Monday of each month when the starting time is 8 p.m. Teen badminton is every Thursday evening at 7:30 p.m.

Card games (euchre) at St. Paul's Church will start Thursday at 1:30.

Mr. and Mrs. Phil Robinson took a trip to Huntsville recently and Mrs. Robinson saw many many changes as it had been almost 40 years since she last visited that town.

Winners at Club 35 card party on Monday evening were: most lone hands - Jim Foster, high lady was Mary Stevenson and high man Len Trodd. The door prize went to Mary Schad while the other winners were Ruth Watson, Alex Stevenson and Len Trodd.

The following is a colourful and interesting history of the game of bingo. Bingo is a much-maligned form of recreation - many people view it as "entertainment for those of lower mentality and lower incomes." This is most untrue, and the following, researched carefully by Minden Rotary Club's own Garth Gammon, may clear up these misconceptions. We certainly hope so.

The game of bingo is a variation of the game of Lotto which is thought to have its origin in the Italian game of "Tumbale". Latin Americans play a similar game called "Bolino". There are many variants of the same theme in North America, Keno, Bingo, Beano, Lucky, radio fortune, Po-Keno and Screeno. In the 1880's travelling carnivals developed the game of Keno. The Keno card contained only 25 squares in a 5 x 5 grid with a number from 1 to 90 in each square, no blank spaces, the operator of the game permitted only one ball at a time to escape. Keno is still very popular in Las Vegas casinos. The game of bingo is almost identical to Keno except only 75 numbers are used and the centre of the card is a free number. Bingo achieved great popularity during the 1930's when depressed business conditions turned people from higher priced gambling games. The Catholic Church

adopted bingo as a fund raiser and social night after the second World War and the cry of "bingo" could be heard coming from church halls and basements across the land.

The game of bingo was perfected and fine-tuned in Minden in 1985 by the Rotary Club. Minden's Rotary Club bingo is internationally known, entertaining players from Europe, the British Isles and U.S.A. with an evening of interesting games, specials, friendly faces and a weekly jackpot. All proceeds are used for community projects

so come out and relax, enjoy the games and help the community all at the same time! Our next game is October 29 at the Minden Community Centre, doors open at 7 p.m.

Heartiest congratulations to Doug and Donna Reinwald on the birth of their son Mathew Douglas, Ron and Sherry Coe of Angus on the birth of their son Walker Earl and to Jalna and Will Wolfram on the arrival of their daughter Halana Lenora Elda.

Sincere sympathy to the families of the late Elva Louise Richmond and Ada Lillian Shorter both of whom passed away recently.

Don't forget the H.A.V.E. Committee's annual concert at the High School on Saturday, November 2 at 8 p.m. Admission is free and the performers are donating their talents - all donations received will go to provide pure drinking water for schools in The Gambia. A most worthy cause and an evening of sheer entertainment. Those artists taking part in the event are: Glenn Carter, Ellen and Ken Hadley, John Miller, Gordon Munro, William Sherwood, Nancy Robichaud, Melissa Stephens, Mary and Richard Stouffer and Rick Vaughan.

Nature's Beauty

We love those beautiful coloured leaves,
We wait all year to look at these -
The wild flowers bloom beside the road,
We feel that this is God's abode.
The evergreens so soft and green
Add their beauty to the scene.
The creek still sings its gurgling song,
It seems that we should join along.
But what's that noise? Ah yes, a car,
It looks like it has travelled far.
They speed along upon their way
And never stop to say 'Good day'.
There is beauty around us,
It's all in God's plan
But the noisy things,
Are invented by man.

Florence Robinson

kid's korner

by Jean Lacey

Hi Kids!

Here is another puzzle for you with a word list. Look in the diagram of letters for the words given in the list. Find them by reading up, down, forward, backward and diagonally. They are all in a straight line and do not skip letters. Circle the words in the diagram and cross it off in the list.

It's as easy as that. Have fun!

Q: Which of the heavenly bodies has the most small change in its pockets?

A: The moon, it's always changing quarters.

Q: Which is the most dangerous of all bats that fly in the air?

A: A brick bat.

Q: Why is a wild young horse like an egg?

A: It must be broken before it can be used.

Q: What do you think is the principal part of a horse?

A: His mane part.

Q: What do you call it when giraffes moving one way get mixed up with giraffes moving another way?

A: A giraffe jam.

Q: The alphabet goes from A to Z. What animal goes from Z to A?

A: A zebra.

Q: Why do you have to be careful when it's raining dogs and cats?

A: You might step in a poodle.

TOWNSHIPS OF ANSON, HINDON AND MINDEN LAND FOR SALE

(Located between The Cobbler & Minden HomeAll, Peck St.)

SEALED OFFERS, in writing and plainly marked as to contents, will be received by the undersigned until

Friday, November 8th, 1985,

at 5:00 p.m. local time, for the following parcel of land:

Part of Lot 11 in the Village of Minden West, being part of Lot 3, Concession A, in the Township of Anson, consisting of approximately 2,000 square feet having a frontage of 40 feet on the south side of Peck Street. The subject land is zoned General Commercial M (GCM) under existing Zoning By-law 14-67, and is proposed to be zoned Village Commercial (C1) under the proposed new comprehensive zoning by-law; both these zones permit such uses as retail stores, etc. Water and sewer hookups may be arranged. Land to be sold as is.

TERMS: 100% cash or Certified Cheque within fifteen (15) days of acceptance of the offer by the Municipality. All costs to be paid by the purchaser.

HIGHEST or ANY OFFER NOT necessarily accepted.

FOR FURTHER INFORMATION contact the undersigned during regular business hours.

(Ms.) B.A. Millar, A.M.C.T. (A),
Clerk-Treasurer,
Townships of Anson, Hindon and Minden,

senior league

by Bert Harrison

Dear readers: A lot of activity here at Thanksgiving time, some have come in to dine with relatives and some gone out to dine. I was pleased to have Mr. and Mrs. Ralph Cooper and Muriel Brown from Brantford on Saturday on their way to St. Peter's Church, Maple Lake. There they were looking forward to a Thanksgiving dinner to partake.

Watched interesting movies over the weekend to keep us entertained until our staff returns to us Tuesday morning again.

A real interesting service in the chapel Sunday night, although the Thompsons were elsewhere. Mary Burgess read the lesson and Rev. John lead in prayer, then Rev. Burgess had a very interesting message for us again. In the verse of the 24th Psalm it says "the earth is the Lord's and the fullness thereof and the world and all that dwell therein."

It is good to see Neil Walker visiting here at Hyland Crest. Neil is a fine young man, we wish him all the best.

Well readers, by the time this letter reaches you, Thanksgiving will be over, the leaf colouring has been grand no matter where you look on nature we see God's revealing hand. Our Administrator returned to us this 15th October day, said that he and Mrs. Brown had a real good time while they were away.

Tuesday morning Rev. Westhaver of Minden United church conducted a service in the chapel. Rev.

Westhaver always has a message for us that is really fine, we thank him for coming this October day and Fred Ballard the music to play.

Tuesday afternoon Linda showed us interesting movies in the auditorium room, "Portrait of Mrs. Tandy", "Alexander McKenzie" and "Buffy the Bored Raccoon". Then Linda read to us from 4:00 until 5:00 for all who wanted to attend the name of the book she is reading is "Summer's End". Tuesday night our entertainers came, Mervin Rivers, Murray and Shirley Davis from near the shore of Horseshoe Lake,

the way they played and sang for us was really quite great. It just seemed to fill the place and they ended up singing Amazing Grace.

Wednesday afternoon the ladies in the Craft room as busy as can be, we don't know just what they are doing we'd better go down and see. Thursday down at fun and fitness where we play different games which all are good, the game we played this morning was won by Millie Wood. I was glad to have Carl Winch of Agincourt on this 17th October day, he and I were in the livestock business many years ago.

Thursday afternoon was the tea party time, but for some reason nobody came. Our head cook served us ice cream, Linda and Jean served us tea, coffee and soft drinks and such, then Linda and I played some lively tunes which seemed to be enjoyed so much.

We wish to thank the Kinsmen members who came to call the bingo numbers Thursday night. Some of the players had good luck and really did alright. We would also like to thank Fern Donnelly who came all the way from Mountain Lake shore to help with fun and fitness like many times before. Friday afternoon Grace Coburn and Norma Barron came to entertain us after being absent for quite some time, for you see Grace's husband has been sick and must

undergo surgery.

The Old Book

"Mother, I've found an old dusty thing High on the shelf. Just look."

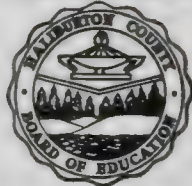

"Why, that's a Bible, Tommy dear.

Be careful, that's God's book!"

"God's book," the wondering child exclaimed,

"Then mother before we lose it we'd better send it back to God;

You know we never use it!"

HALIBURTON COUNTY BOARD OF EDUCATION

TENDER CLASSROOM WINDOWS

The Haliburton County Board of Education invites tenders for the supply and installation of Classroom Windows at the Archie Stouffer Elementary School. Specifications for this work may be picked up at the Board Office, Haliburton.

Sealed tenders marked "Archie Stouffer Windows" will be received by the undersigned at the Board Office, Haliburton until 4:00 p.m. November 11, 1985.

The lowest or any tender not necessarily accepted.

Stanley W. Baker, Business Administrator,
Haliburton County Board of Education,
P.O. Box 507, Haliburton, Ontario.

ELECTED SECRETARY OF O.F.S.A.

Gordon A. Monk of the Gordon A. Monk Funeral Home, at the annual meeting of the Ontario Funeral Service Association held in Ottawa from October 7th to 10th was elected Secretary of the Provincial Association for the coming year. O.F.S.A. has membership in excess of 500 Funeral Directors in Ontario. The organization is committed to constantly upgrading and improving the standards of Funeral Service within the Province. The Association maintains an office in Toronto with a toll-free number, 1-800-268-2727, with staff which are ready to provide information concerning funeral service to the general public. The organization has been responsible for publishing many information brochures which are available to the public through its members. It also maintains an educational film library (along with projectors) which is available through a member Funeral Director to any public group on a no-charge basis.

O.F.S.A. works in conjunction with the Board of Funeral Service and the Provincial Government to provide improved legislation which ultimately insures consumer protection. More recently, O.F.S.A. has implemented a program of bonding each member as well as establishing a voluntary compensation fund to insure consumer protection against misuse of trust funds. It is strongly suggested that anyone prearranging or prepaying a Funeral Service should be sure that the Funeral Director is a member of O.F.S.A. in order to provide the buyer with maximum protection of his/her funds.

Most recently O.F.S.A. has formed a committee where they are working with the various Health Care specialists to keep its members informed of the risks involved and how to provide maximum protection for the public against communicable diseases such as A.I.D.S., Hepatitis B, etc.

It is to be hoped that the various organizations within the community will make use of the information services provided by O.F.S.A. by simply contacting Gordon at 286-1181 or at the above toll-free number.
